

**SEES NO PEACE IN MEXICO.**  
La Roca Says It Will Be a Long Time Before It Comes.

President Huerta has a longer time on the horizon now. That which will be done, he cannot say, as to affairs in his land, he said. I have not had a long time before there is peace in Mexico.

Chiefly, however, he thinks.

Ministers of Mexico who come to America sympathize for his people, he said. Six million such men are useful. The Duke and Duchess of York and their three children were invited, bound for State. The Duchess was Miss Mary March, a member of New York family.

# TROOPS ARE CALLED OUT TO QUELL RIOTS IN \$2,000,000 HASTINGS MUNITIONS PLANT

Sheriff Confers With Village Board and Four Companies Are Summoned.

**ALL SALOONS CLOSED**

Four Companies of Militia Mobilized at Hudson River Villages.

The militia was called upon today by Sheriff Weissenberger of Westchester County to quell the rioting of 2,000 foreign-born workers at the Hastings munitions plant of the National Copper and Zinc Company at Hastings on Hudson and communicated with Gen. Whitman.

Trolley motormen and conductors employed by the Union Railway threatened to strike today when asked to run special cars carrying militia from Yonkers. The Mount Vernon and Yonkers companies had assembled in readiness for duty in Yonkers when the trolley employees served notice on the company that they would not transport the militia.

Arrangements were made to send the militia to Hastings by automobile and the New York Central. The strikers, hearing that the soldiers were coming, formed in bodies in various parts of the town to resist the invading force.

Though the Sheriff issued an order for the closing of all saloons and wholesale liquor stores within the limits of the village of Hastings, it was not promptly obeyed. Strikers gathered in the river bank saloons and boasted they would fight the militia. There is an understanding among them that somebody was going to furnish money to buy them arms and ammunition.

The Sheriff's action in calling for troops followed a meeting with the village trustees of Hastings. Under the windows of the Corporation Hall there was a yelling mob of strikers, throwing stones, flourishing revolvers and fighting among themselves with helpless policemen and deputies scattered among them.

The trustees promptly surrendered the police jurisdiction of the village to the Sheriff, and formally asked him to summon the militia.

Notwithstanding the shutting down of the plant the 2,000 striking foreign-born workers continued their rioting this morning, destroying company property and exchanging revolver shots with the guards. One striker was seen to fall in the revolver battle.

## WASTING AWAY

The stomach, liver and bowels cause trouble than any other part of the body.

There are those people whose food does not do them the good it should. They have bad taste in the mouth, coated tongue, fullness and distress after meals. They often have pain in the weak nervous system, have slow complexion and can not sleep.

**DR. GREENE'S NERVOUS**

builds people up because it makes them get the benefit of their food and drives away the limiting of the nervous system.

**SOLD BY ALL DRUGGISTS**

Dr. Greene will give free medical advice to all who write to his office and laboratory, 397 Albany St., Boston, Mass.

**SHERIFF WHO CALLS UPON THE MILITIA TO STOP HASTINGS RIOT.**

## WOMAN SHOT TWICE IN QUARREL WITH MAN IS DYING; HE IS HELD

**Eva Mariano Is Accused of Firing on Widow Because of Jealousy.**

ALBANY, N. Y., April 18.—The situation, forty-three years old, of the wife of Ulrich Weissenberger, the sheriff from a wildwood town, the author of a quarrel late last night, has developed into new scenes and has become an item of the Passaic County jail, charged with an attempted murder.

According to the story told to the press, Mariano and Mrs. Becker had an argument last evening in Monroe. The two met close to the New Haven tracks. It is said an argument arose between them because Mariano was jealous.

Mariano is said to have drawn a revolver and fired two bullets at the woman. One struck her in the mouth and the other in the right hand. Mariano fled, but was later captured near the plant of the Wamoque Paper Mills at Wanaque. He was arraigned before Justice William Brown of Midvale and sent to the county jail.

Mrs. Becker was taken to her home where she was attended by Dr. Joseph. The physician says the bullet wound in the mouth will probably prove fatal.

The authorities say the woman had similar trouble about two years ago.

## MORE REGIMENTS TO JOIN PERSHING; ATTACKS FEARED

(Continued from First Page.)

forward to Pershing's relief, should be attacked.

Pershing has "dug in" all along the line, as if anticipating an attack from a superior force of Mexicans.

Despatches from the border say there is confirmation of reports that the American expeditionary force is being concentrated at three points, preparatory for the withdrawal of the troops or the organization of a new and more extensive campaign.

It was said that Gen. Pershing had withdrawn all outlying detachments south of Nampiquia, and that in the neighborhood of 3,000 men were camped at San Antonio, twelve miles west of Cusihuinchio, and that a force estimated at almost double this number was being concentrated near Nampiquia.

Gen. Pershing has reported that Mayor Herrera of Parral warned against the return of American troops into that city.

Administration officials have no intention of withdrawing American troops from Mexico simply to please Carranza, or because Carranza troops at Parral fired on Major Tompkins's detachment of the Thirteenth Cavalry, killing two and wounding six.

When Gen. Pershing has accomplished his mission, negotiations will be entered into looking to the withdrawal of his troops.

Under no circumstances will Pershing withdraw in such a way as to leave the impression in Mexican minds he was forced out.

It was suggested here to-day that if a break comes with Germany Pershing's detachments may be withdrawn, as military prudence would require that steps be taken to prepare for eventualities in Europe.

MEXICO CITY, April 19.—Eliseo Arredondo, Ambassador designate of the de facto Government at Washington, has been instructed to make another demand for the speedy withdrawal of American troops from Mexico, according to Senor Amador, Secretary of Foreign Relations. The demand is based on the assertion that Villa bands have been dispersed and the presence of troops is no longer necessary. It is believed here President Wilson will accede to the demand.

## FUNSTON SENDS MORE TROOPS TO PERSHING; FEAR CARRANZA ATTACK.

SAN ANTONIO, Tex., April 19.—Gen. Funston has sent to Columbus, N. M., Gen. Pershing's base, the Sixth Cavalry, from the Brownsville district; the Seventeenth Infantry, from Eagle Pass; the first battalion of the Twenty-fourth Infantry, from Eagle Pass, and Troop L of the Tenth Cavalry, from Fort Apache, 2,300 regulars in all.

These troops will be subject to Gen. Pershing's orders and may advance into Mexico whenever he wishes them.

What troops will relieve them and

where they will come from was not announced.

The War Department, it was said, will estimate the sending of troops to fit the present existing or Texas may need for service.

In addition to the new troops, Gen.

Funston has 100,000 men available.

Staff officers have been appointed

over days past without authority.

Thus far no report has been received that any of these men were dismissed.

To that situation is added an unapprised hostility of various German organizations that army men here declare makes doubly necessary the strengthening of Gen. Pershing's forces.

It is seen with more troops, the American will be able to hold off the State of Chihuahua in the opinion of many officers. They say that the troops required makes more difficult the operation of supply trucks.

## EXPLOSIONS DESTROY NORWEGIAN STEAMER

Crew of the *Torle Viking* Reported Sailed—Three Explosions on the Ship.

LONDON, April 19.—A Lloyd's despatch from Lisbon says the Norwegian steamer *Torle Viking* with 1,000 passengers on board, en route to Liverpool, exploded three times yesterday evening. The ship was bound for Liverpool from Rio de Janeiro.

The *Torle Viking* sailed on March 16 from Galveston for London. She was of 2,572 tons gross.
